

# Ford Rouge Factory Tour

The *Ford Rouge Factory Tour* is a five-part adventure where visitors can get an inside look at the making of America's most iconic truck, the Ford F-150, and immerse themselves in modern manufacturing's most progressive concepts. Experience the awe-inspiring scale of a real factory floor as you rev up your inner engineer. This where big ideas gain momentum.

This visionary manufacturing facility is a one-of-a-kind setting for private or semi-private function incorporating a fully interactive experience into your event. All events include the five signature elements of America's greatest manufacturing experience:

- A three-screened film about the ideas that gave birth to the Rouge Plant and its unique role in American history.
- A multi-sensory exploration of the manufacturing experience, from concept to highway. Filled with jaw-dropping special effects, from "floating" 3D laser projection mapping and high-energy audio to a breathtaking behind-the-wheel finale.
- An observation deck to view the highlights of the environmentally enlightened facility.
- An in-depth tour of the Final Assembly from an elevated walkway at the Dearborn Truck Plant.
- The Legacy Gallery, where guests see some of the Rouge's legendary vehicles.
